RE: Safety-Kleen Corp., Brentwood EPA ID #MOD096714829

Dear Mr. Fore:

The Missouri Department of Natural Resources (MDNR) in accordance with 40 CFR 265.1(b) and 40 CFR 270.73(g) considers the above referenced facility's interim status as a Resource Conservation and Recovery Act (RCRA) hazardous waste storage facility in Brentwood, Missouri, terminated.

This action is taken in consideration of the following items:

1. A certificate of closure signed by Mr. Kenneth R. Gordon, Vice President, Technical, and Harold T. Brown, P.E., an independent registered engineer, on January 9, 1987, in accordance with the approved closure plan and in accordance with 40 CFR 265.115.
2. A letter releasing Safety-Kleen Brentwood from financial assurance dated December 16, 1992, in accordance with 40 CFR 265.143(h).
3. A copy of the Final Environmental Priority Initiative/Preliminary Assessment (EPI/PA) equivalent to a Final RCRA Facility Assessment (RFA) dated August 23, 1990.
4. A letter dated October 15, 1990 from the U.S. EPA Region VII indicating that no further corrective action is needed based upon the RFA.

If at any time in the future it is determined that there was a release of hazardous waste or constituents into the environment or the above information is determined to be invalid or inaccurate, EPA retains the right under Section 3008(h) of RCRA, as amended on November 8, 1984, to initiate interim status corrective action.

We now consider Safety-Kleen Brentwood to be classified only as a generator of hazardous waste and will amend our records accordingly. If you have any questions, please call Ms. Darleen Westcott of my staff at (314) 751-3176.

Sincerely,

HAZARDOUS WASTE PROGRAM
